Sheriff's Office Cannabis Enforcement Unit	\$4,150	50% deposit for Sheriff's Office Cannabis Enforcement Unit to purchase a new, modern dump trailer for use in Cannabis Eradication. The current trailer is a decades old tow behind trailer which is open with 4 foot side rails which makes it difficult to tie down large quantities of cannabis for transportation. Also, it requires manual unloading at the dump which increases the risk of injury to Sheriff's Office personnel. Last year, the trailer was used to transport approximately 10,000 pounds of abated cannabis to the landfill from various locations in the county and we anticipate higher numbers this year. The cost for the new dump trailer with higher walls and cover is \$8,300.04.

Sheriff's Office Special Enforcement Detail	\$2,428	Funds were provided to upgrade the Special Enforcement Detail teams five single shot break action 40mm launchers. The Special Enforcement Detail (SED) was in need of updating less lethal deployment technology. The team currently utilizes less lethal 40mm launchable impact rounds but the launchers are single round devices and require reloads during dynamic scenarios. The newest and best launchers on the market are built to contain 4 rounds which do not require a reload until all 4 rounds are expended. Having 4 less lethal rounds readily accessible and deployable would greatly increase success in a dynamic scenario.
